// TECH SKILLS

Programming with Ai
TypeScript, JavaScript, Python, PHP, SQL, Dart, Java

Frontend with Ai
React 19, Next.js 15, Tailwind CSS, Vite, Framer Motion

Backend with Ai
Laravel 11, NestJS, Node.js, FastAPI, Flask, REST APIs, JWT & RBAC

Databases with Ai
PostgreSQL, MySQL, MongoDB

Mobile with Ai
Flutter, Kotlin (Android)

DevOps & Tools
Git, GitHub Actions, Docker, Vercel, Render, Figma

AI-Assisted Dev
AI pair-programming, Claude API, prompt engineering

// EDUCATION

B.Sc. Software Engineering
Koya University, Faculty of Engineering
2023 - 2027 (expected)

// CERTIFICATIONS

Complete Python Bootcamp
Udemy · 2026

Cisco Packet Tracer
Cisco Networking Academy · 2026

Introduction to ERP with Odoo
Koya Lab, The Foundation · 2025

Intro to Machine Learning
Kaggle · 2024

// LANGUAGES

Kurdish Sorani	Native
English	Good

// PROFILE

Final-year Software Engineering student at Koya University who builds and ships full-stack web apps with React/Next.js, Laravel and PostgreSQL, including a café management system that is live in production.

// EXPERIENCE

Freelance Full-Stack Developer · Self-employed — 2025 - Present

- Built and deployed a two-portal café management system, live in production: mobile ordering, real-time kitchen sync and analytics.
- Developed a Gym Management System for KF and a Real Estate Management System, gathering requirements directly with each business.
- Building a management system for a kindergarten and a K–12 school, with separate data for each campus.
- Deploy and maintain client apps on Render and Vercel, including Docker, CORS and environment setup for Laravel APIs.

Manager · Dawan Company & Real Estate — 3 months

- Managed daily operations, the team and client requests.

// PROJECTS

School Administration & Finance System — GitHub ↗

Next.js 15 · Laravel 11 · PostgreSQL 16 · TypeScript

Role-based access with Sanctum, student profiles, tuition and meal-balance tracking with overpayment protection, a payroll ledger and PDF/CSV reports.

Cafe Management System

react19 · Vite · Laravel 11 · Docker

A high-performance, dual-portal platform powering Nali Cafe's operations — from self-service Mobile ordering with real-time kitchen sync to a comprehensive admin dashboard with live analytics, financial reporting, and multi-currency/bilingual support.

Zanko GreenLegacy · Zanko Award, 2nd place — GitHub ↗

Flutter · Flask · PostgreSQL · PyJWT

Gamified campus sustainability app: interactive map, faculty leaderboards, eco-badges and AI verification of tasks from photos and video.

// LEADERSHIP & AWARDS

- **Team Leader, SmartSuli AI Hackathon** — Sep 2026. Led a 5-person team pitching GreenLegacy Sulaimaniyah, a B2G recycling platform.
- **Zanko Award, 2nd Place** — Koya University, June 2026
- **Leader of the SOFTSPACE Group** — Koya University, 2025–2026
